

DUAL DIAGNOSIS COMMUNITY OPEN DIALOGUE

Join to continue the discussion on how the north east regional area can better respond to mental health and substance use issues.

The Open Dialogue space aims to provide the opportunity for affected individuals, community members and service providers to share their experiences, and look for solutions to better respond to Dual Diagnosis in the future.

The open dialogue space aims to

- Raise awareness of what Dual Diagnosis means for North East
- Regional area Work collectively on an approach to Dual Diagnosis in the community
- Strengthen community links through networking
